Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

2. RATINGS

Applicable

Ratings: The Notes to be issued have been rated BBB and BBB respectively by Standard and Poor’s and Fitch.

Each of Standard and Poor’s and Fitch is established in the EEA and registered under Regulation (EU) No 1060/2009, as amended (the “**CRA Regulation**”).

3. NOTIFICATION

The Central Bank of Ireland has provided the *Commissione Nazionale per la Società e la Borsa* with a certificate of approval attesting that the Base Prospectus dated 21 December 2018 has been drawn up in accordance with the Prospectus Directive.

4. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save as set out below and so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer.

The *Direttore del Consorzio* and the Distributors will be paid by the Issuer in respect of their activities as *Direttore del Consorzio* and Distributors respectively the commissions stated in paragraph 10 (*Terms and Conditions of the Offer*) below, which are embedded into the Issue Price and Offer Price. Investors’ attention is drawn to the circumstance that the *Direttore del Consorzio* and certain of the Distributors belong to the same banking group.

The *Direttore del Consorzio* is expected to act as hedge counterparty of the Issuer or its affiliates in connection with the issue of the Notes. The commission payable by the Issuer to the *Direttore del Consorzio* for its role of 0.50 per cent. of the Aggregate Nominal Amount of the

Notes effectively placed also remunerates the assumption by the *Direttore del Consorzio* of such hedging risk.

The *Direttore del Consorzio* has issued financial instruments linked to the Issuer.

The Notes will be negotiated on the multilateral trading facility (MTF) EuroTLX which is organized and managed by EuroTLX Sim S.p.A. The *Direttore del Consorzio* and its affiliates:

- have an equity stake of 15 per cent in EuroTLX Sim S.p.A.;
- have elected more members of the Board of Directors and the Board of Statutory Auditors of EuroTLX Sim S.p.A.;
- have granted significant financing to EuroTLX Sim S.p.A. and its parent and group companies and they are one of the main financial lenders to EuroTLX Sim S.p.A. and its parent and group companies;
- may act as market maker or liquidity provider on EuroTLX in respect of the Notes.

Certain of the Distributors, the *Direttore del Consorzio* and their affiliates, in the ordinary course of business, have engaged or may in the future engage in lending, advisory, investment banking and corporate finance services for, the Issuer, its parent and group companies and to companies involved directly or indirectly in the sector in which the Issuer operates. The *Direttore del Consorzio* and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, or the Issuer's affiliates. The *Direttore del Consorzio* and its affiliates that may have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically the *Direttore del Consorzio* and its affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued. Any such short positions could adversely affect future trading prices of the Notes issued.

Section D – Risks

Element	Description of Element	Disclosure requirement
D.2	Key risks specific to the Issuer and Guarantor	<p>There are certain factors that may affect each Issuer’s ability to fulfil its obligations under Notes issued under the Programme. These include the following risk factors related to the Mediobanca Group, its operations and its industry:</p> <ul style="list-style-type: none"> (i) The general economic conditions, the performance of financial markets, interest rate levels, currency exchange rates, changes in laws and regulation, changes in the policies of central banks, particularly the Bank of Italy and the European Central Bank, and competitive factors can change the level of demand for the Issuer’s products and services, the credit quality of borrowers and counterparties, the interest rate margin of the Issuer between lending and borrowing costs and the value of each of the relevant Issuer’s investment and trading portfolios (ii) The European sovereign debt crisis has adversely affected, and may continue to adversely affect, the Issuer’s results of operations, business and financial conditions. (iii) The Mediobanca Group has exposure to Eurozone sovereign debt. (iv) Fluctuations in interest and exchange rates may affect the Issuer’s results. (v) The results of the Issuer are affected by general economic, financial and other business conditions. (vi) The credit and capital markets have been experiencing extreme volatility and disruption in recent months.
		<ul style="list-style-type: none"> (vii) Each of the Issuer’s investment banking revenues, in the form of financial advisory and debt and equity underwriting fees, are directly related to the number and size of the transactions in which the relevant Issuer participates and may be impacted by continued or further credit market dislocations or sustained market downturns. (viii) In some of each relevant Issuer’s businesses, protracted adverse market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity. (ix) In the event that the extreme volatility and disruption experienced by international and domestic markets in recent months continue in the future, the Issuer’s liquidity can be adversely affected.
		<ul style="list-style-type: none"> (x) If the Issuer is unable to continue to respond to the competitive environment in Italy with attractive product and service offerings that are profitable for the Issuer, it may lose market share in important areas of its business or incur losses on some or all of its activities. (xi) If existing or potential customers believe that the Issuer’s risk management policies and procedures are inadequate, the Issuer’s reputation as well as its revenues and profits may be negatively affected. (xii) Each of the Issuers, like all financial institutions, is exposed to many types of operational risk, including the risk of fraud by employees and outsiders, unauthorised transactions by employees or operational errors, including errors resulting from faulty computer or telecommunication systems. (xiii) Systemic risk could adversely affect the Issuer’s businesses. (xiv) The investors should note that the portfolio of the Issuer contains so- called

		<p>“<i>over the counter</i>” (OTC) derivatives. If the financial condition of market counterparties or their perceived creditworthiness deteriorates further, the Group may record further credit valuation adjustments on the underlying instruments insured by such parties.</p> <p>(xv) A downgrade of Mediobanca’s rating may limit Mediobanca’s opportunities to extend mortgage loans and may have a particularly adverse effect on Mediobanca’s image as a participant in the capital markets, as well as in the eyes of its clients.</p> <p>(xvi) Changes in the Italian and European regulatory framework could adversely affect the Issuer’s business.</p> <p>(xvii) The guarantee given by the Guarantor is capped at 110 per cent. of the aggregate principal amount of any Tranche of the Notes and 110 per cent. of the interest on such Notes accrued but not paid.</p>
D.3	Key risks specific to the Notes	<p>In addition, there are certain factors which are material for the purpose of assessing the risks related to Notes issued under the Programme. The Notes may not be suitable for all investors. A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. These include the following:</p> <p>(i) The Notes may not be a suitable investment for all investors.</p> <p>(ii) Under EC Council Directive income 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU), each EU Member State is required to provide by automatic exchange to the tax authorities of any other EU Member State information regarding taxable periods as from 1 January 2016 concerning Reportable Accounts held by a Reportable Person with a local Reporting Financial Institutions in which Notes may be held. Information to be reported include, among others, name, address, Member State(s) of residence, TIN(s) of each Reportable Person that is an account holder, the account number, the name and identifying number of the Reporting Financial Institution, the account balance or value as of the end of the calendar year, the total gross amount of interest dividends and other income generated with respect to the assets held in the account, including gross proceeds originating from the relevant sale or redemption.</p>
		<p>(iii) The Issuer and other financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30% on all, or a portion of, payments made after 31 December 2018 in respect of (i) any Notes characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued after 31 December 2012 or are materially modified from that date and (ii) any Notes characterized as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued, pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code or similar law implementing an intergovernmental approach to FATCA.</p> <p>Risk related to the structure of a particular Issue of Notes</p> <p>(i) An optional redemption feature of Notes is likely to limit their market value.</p> <p>(ii) Notes with variable interest rates can be volatile investments.</p> <p>(iii) Fixed/Floating Rate Notes may bear interest at a rate that may convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate and any conversion, depending on market interest rates, may adversely affect the</p>

Element	Description of Element	Disclosure requirement
		<p>value of the Fixed/Floating Rate Notes.</p> <p>(iv) To the extent that the Issuer is required by law to withhold or deduct any present or future taxes of any kind imposed or levied by or on behalf of the Republic of Italy or the Grand Duchy of Luxembourg, as appropriate, the Issuer will not be under an obligation to pay any additional amounts to Noteholders.</p> <p>(v) Potential investors should also consider that where the underlying interest rate does not rise above the level of the Minimum Interest Rate, comparable investments in notes which pay interest based on a fixed rate which is higher than the Minimum Interest Rate are likely to be more attractive to potential investors than an investment in the Notes. Under those conditions, investors in the Senior Preferred Notes and the Subordinated Notes might find it difficult to sell their Notes on the secondary market (if any) or might only be able to realise the Notes at a price which may be substantially lower than the nominal amount. To the extent a Maximum Interest Rate applies, investors should be aware that the Interest Rate is capped at such Maximum Interest Rate level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affect the market value of the Notes.</p>
		<p>(vi) If Mediobanca is declared insolvent and a winding up is initiated, it will be required to pay the holders of senior debt and meet its obligations to all its other creditors (including unsecured creditors) in full before it can make any payments on the Subordinated Notes. If this occurs, Mediobanca may not have enough assets remaining after these payments to pay amounts due under the Subordinated Notes.</p>
		<p>Risk Factors related to the Notes generally:</p> <p>(i) The Notes are governed by, and shall be construed in accordance with, English law. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.</p> <p>(ii) “Euroclear Bank S.A./N.V. (“Euroclear”) and/or Clearstream Banking, <i>société anonyme</i>, Luxembourg (“Clearstream, Luxembourg”) will maintain records of the beneficial interests in the Global Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.</p> <p>(iii) The Issuers and the Guarantor may, without the consent of Noteholders, correct (i) any manifest error in the Terms and Conditions of the Notes and/or in the Final Terms; (ii) any error of a formal, minor or technical nature in the Terms and Conditions of the Notes and/or in the Final Terms or (iii) any inconsistency in the Terms and Conditions of the Notes and/or in the Final Terms between the Terms and Conditions of the Notes and/or the Final Terms and any other documents prepared in connection with the issue and/or offer of a Series of Notes (provided such correction is not materially prejudicial to the holders of the relevant Series of Notes).</p> <p>(iv) Potential conflicts of interest may exist between Dealers, which may underwrite the Notes issued under the Programme and receive in consideration underwriting commissions and selling concessions, or Mediobanca, which may act as market maker or specialist or perform other similar roles in connection with the notes, on the one hand, and investors in the Notes on the other.</p>

Element	Description of Element	Disclosure requirement
		<p>(v) The Notes may be issued and withheld by the Issuer for the progressive sale on the market in accordance with investors' demand. In this context an investor who acquires the Notes does not know at the moment of purchase how much of the issued Notes effectively are publicly traded, with the consequence that the amount in circulation could be meagre and may not guarantee successively adequate liquidity in the Notes.</p>
		<p>(vi) In the event the Issuer decides to issue further Notes having the same terms and conditions as an already existing Series of Notes (or in all respects except for the Issue Price, the Issue Date and/or the first payment of interest) and so that the further Notes shall be consolidated and form a single series with the original Notes, the greater nominal amount in circulation could lead to greater liquidity in the secondary market with a consequent negative impact on the price of the relevant Series of the Notes.</p> <p>Risk Factors relating to the market generally:</p> <p>(i) Notes may have no established trading market when issued, and one may never develop. The Issuer has not any obligation to purchase the Notes from the Noteholders. However, should the Issuer decide to purchase the Notes, the secondary market pricing that the Issuer may provide on the Notes may reflect the unwinding cost of the hedging portfolio (if any).</p> <p>(ii) The Issuer will pay principal and interest on the Notes in the Relevant Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit other than the Relevant Currency.</p>
		<p>(iii) Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.</p>
		<p>(iv) One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes.</p> <p>(v) The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers.</p> <p>(vi) Implicit fees (e.g. placement fees, direction fees, structuring fees) may be a component of the Issue/Offer Price of Notes, but such fees will not be taken into account for the purposes of determining the price of the relevant Notes in the secondary market.</p> <p>(vii) Under certain circumstances, the Issuer, upon request by the <i>Direttore del Consorzio</i> may have the right to withdraw the offer, which in such circumstances will be deemed to be null and void according to the certain terms.</p> <p>(viii) It is not possible to predict the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list or admit Notes to trading on a stock exchange or market. The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private agreement.</p> <p>(ix) The Issuer shall use all reasonable endeavours to maintain listing on the Euronext Dublin, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the Issuer may</p>

Element	Description of Element	Disclosure requirement
		<p>apply to de-list the relevant Notes, although in this case it will use all reasonable endeavours to obtain and maintain (as soon as reasonably practicable after the relevant de-listing) an alternative equivalent admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide.</p>

If, in respect of any particular issue, there is a particular identified use of the proceeds, this will be stated in the applicable Final Terms, including in case the net proceeds of the issue of each Tranche of Notes will be used for the purposes of Eligible Green Projects.</p> <p>According to the definition criteria set out by the International Capital Market Association (“ICMA”) green bond principles (“Green Bond Principles”), only Tranches of Notes financing or refinancing Eligible Green Projects will be denominated “Green Bonds”.</p> <p>Eligible Green Projects have been defined in accordance with the broad categorisation of eligibility for green projects set out by the ICMA Green Bond Principles.</p> <p>For the purposes of this section:</p> <p>“Eligible Green Projects” means projects with a positive impact in terms of environmental sustainability, in accordance with the broad categorisation of eligibility for green projects set out by ICMA, which prior to the relevant Issue Date will be (i) approved by the relevant Issuer and in respect of which a reputed sustainability rating agency has prepared an opinion on the relevant Issuer’s alignment with the Green Bond Principles, the likely environmental benefits of the eligible project categories, unless the relevant Issuer is seeking a Climate Bonds Initiative certified bond, which is appropriately verified by external reviewer, and (ii) made available on the relevant Issuers’ website (https://mediobanca.com) in the investor relations section.</p>

Payments by investors in respect of the purchase of the Notes shall be made by the Issue Date. The Global Notes will be delivered to the relevant clearing system no later than on the Issue Date.</p>
E.4	Material interests in the offer	<p>Save as set out below and so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer.</p> <p>The <i>Direttore del Consorzio</i> and the Distributors will be paid by the Issuer in respect of their activities as <i>Direttore del Consorzio</i> and Distributors respectively the commissions stated below, which are embedded into the Issue Price and Offer Price. Investors' attention is drawn to the circumstance that the <i>Direttore del Consorzio</i> and certain of the Distributors belong to the same banking group.</p> <p>The <i>Direttore del Consorzio</i> is expected to act as hedge counterparty of the Issuer or its affiliates in connection with the issue of the Notes. The commission payable by the Issuer to the <i>Direttore del Consorzio</i> for its role of 0.50 per cent. of the Aggregate Nominal Amount of the Notes effectively placed also remunerates the assumption by the <i>Direttore del Consorzio</i> of such hedging risk.</p> <p>The <i>Direttore del Consorzio</i> has issued financial instruments linked to the Issuer.</p> <p>The Notes will be negotiated on the multilateral trading facility (MTF) EuroTLX which is organized and managed by EuroTLX Sim S.p.A. The <i>Direttore del Consorzio</i> and its affiliates:</p> <ul style="list-style-type: none"> • have an equity stake of 15 per cent in EuroTLX Sim S.p.A.; • have elected more members of the Board of Directors and the Board of Statutory Auditors of EuroTLX Sim S.p.A.; • have granted significant financing to EuroTLX Sim S.p.A. and its parent and group companies and they are one of the main financial lenders to EuroTLX Sim S.p.A. and its parent and group companies; • may act as market maker or liquidity provider on EuroTLX in respect of the Notes.

Element	Description of Element	Disclosure requirement
		<p>Certain of the Distributors, the <i>Direttore del Consorzio</i> and their affiliates, in the ordinary course of business, have engaged or may in the future engage in lending, advisory, investment banking and corporate finance services for, the Issuer, its parent and group companies and to companies involved directly or indirectly in the sector in which the Issuer operates. The <i>Direttore del Consorzio</i> and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, or the Issuers's affiliates. The <i>Direttore del Consorzio</i> and its affiliates that may have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically the <i>Direttore del Consorzio</i> and its affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued. Any such short positions could adversely affect future trading prices of the Notes issued.</p>
